

**CITY OF WILSON
LOAD MANAGEMENT RIDER
SCHEDULE LM-RIDER-4**

AVAILABILITY:

This electric rate rider is available to the City of Wilson electric Customers on the medium general service rate that agree to actively participate in the load management program of the City of Wilson. The provisions are modified only as shown herein.

This rider is not available for short term or temporary service.

MONTHLY RATE:

The monthly rate shall be an amount computed under the medium general service schedule for the billing demand and the kilowatt-hours used during the current month, less the following discount:

For the Customer who agrees to curtail on a regular basis and does in fact curtail 25% or more of the normal demand during the monthly coincident peak hour:

\$8.00 Credit Per KW of Interrupted Demand

Interrupted demand is defined as the 60-minute KW demand of the Customer during the time of the monthly coincident peak hour subtracted from the clock hour 60-minute KW demand which is determined to represent what the normal KW demand of the Customer would have been during the wholesale billing hour had the Customer not actively employed load management efforts to reduce their load. The monthly coincident peak hour is the 60-minute interval during the billing month, which is used by the North Carolina Eastern Municipal Power Agency (NCEMPA) for the wholesale billing to the City.

Delays in notification of the monthly coincident peak hour from NCEMPA may result in the credit being applied to the following month's bill.

If the City does not send the load management signal, there will be no load management credit for the month.

The load management credit will not be given to those Customers whose facilities are not operating under normal load conditions on the day of the wholesale billing hour. (i.e.: plant shutdowns, Saturdays, etc.)

It is the intent of the City to give the load management credit to those Customers who, after notification by the City to reduce load, do in fact actually and actively reduce the normal load by at least 25%. The City reserves the right to establish a maximum credit amount for each month.

CONTRACT PERIOD:

The contract period shall be on a monthly basis and shall be terminated by either party by giving written notice to the other party. The City of Wilson will have the right to withhold, suspend, cancel, or withdraw this rider at any time and for any reason to any or all Customers.

METERING AND DETERMINATION OF DEMANDS AND CREDITS:

The City of Wilson will install the necessary metering equipment to determine the Customer's electrical demand and kWh's during each hour of the month for an accurate indication of the Customer's efforts to curtail load during the monthly peak periods.

The Director of Wilson Energy will be responsible for determining the availability of the rider, the billing demands, the appropriate credits, and any limits or maximums on the load management credits.

ADDITIONAL CONDITIONS:

Service rendered under this Schedule is subject to the provisions of the service regulations of the City.

Except where otherwise provided by a separate agreement, the City reserves the right to alter, amend, or discontinue service under the terms of this schedule in accordance with its rate making and rate administration standards. Where such alterations, amendments, or discontinuance occur, the City will endeavor to provide thirty (30) days advance written notice to Customer. In the event of discontinuation, the City may provide Customer with alternative schedule(s) under which to receive service.
